FYI. If one doesn't exist already, go ahead and create a complaints file in this SPUs p drive folder and save this and any other complaints we get to it. Thanks.

Subject: Complaint Received

Candy Arthur 504-559-7205 called to make a complaint of a car lot Mike Nabut owns near her property that she supported at the time when he had to be granted permission to place the business at the location to operate from 9am to 5pm only. Her complaint is that car alarms from the lot goes off throughout the day and it is disturbing the peace in the neighborhood. This pass Sunday it went off also and she has video. When asked if she contacted the police department she stated that they will not do because when she did call them it was during operating hours and not during the time the noise ordinance can be enforced.
