**CONTRACT FOR PROFESSIONAL
ENGINEERING SERVICES**

between

ST. CHARLES PARISH

and

C. J. SAVOIE CONSULTING ENGINEERS, INC.

AGREEMENT II

The St. Charles Parish Council, herein referred to as "the Parish" and represented by V. J. St. Pierre, Parish President and C. J. Savoie Consulting Engineers, Inc. herein referred to as "the Engineer" and represented by C. J. Savoie do hereby enter into this agreement whereby the Engineer will perform services hereinafter set forth in the "Scope of Services".

I. PURPOSE:

St. Charles Parish spends large sums of taxpayer dollars each year on engineering and construction projects. Although the construction projects are bid out as required by law, review of engineering plans and specifications by a third party insures Parish officials and the public that taxpayer dollars will be used wisely with the public getting the most of their dollars. Additionally, the Parish will benefit from other services to be provided by the Engineer as more fully set forth thereafter in the "Scope of Services".

II. SCOPE OF SERVICES:

1. Prepare scope of work for all engineering projects as required by the Parish to allow design engineering firms to submit professional qualification proposals for design of Parish projects.
2. Review contracts and evaluate fees charged by other engineering firms prior to the execution of the said engineering contracts.
3. Evaluate proposals submitted by engineering firms.
4. Assist the Parish as an expert witness in litigation.
5. Assist the various Department's with problems relative to Parish sewerage and water systems.
6. Prepare necessary documents for minor utility relocations resulting from highway construction.
7. Assist the Parish in evaluating pump requirements, hydraulics, engineering calculations, etc. Investigate any problems with the many drainage and sewer stations throughout the Parish and make improvement recommendations as well as being on an advisory capacity should a failure occur with a pump or an operational panel board.
8. Prepare applications for permits for minor drainage projects, recreational projects such as boat launches, and other permits that are required for Parish projects (ie., State right-of-way permits).
9. Assist the Parish in direction for miscellaneous projects that Parish personnel perform.

10. Assist the Parish in developing proper methods and procedures for street overlaying, maintenance and repairs as needed.
11. Assist the Parish in project specifications and construction drawings as required for various repair and improvement projects.
12. Attend Council meetings and committee meetings when requested by the Parish President.
13. Assist the Wastewater Director and the Public Works Director on in-house engineering matters.
14. Prepare cost estimates on in-house projects for budgeting purpose.
15. Review per request of the Parish any construction projects in progress. Check all modifications to project, change orders, invoices, etc., in the posture of being an agent and second opinion to the Parish. Such review does not assume the design or inspection responsibilities for projects designed by other engineering consultants.

III. AUTHORIZATION TO ASSIGN PROJECTS AS PROVIDED FOR IN THE SCOPE OF SERVICES:

The Parish President and all of his Directors including the Manager of the Wastewater Department shall have the authority to assign work under this contract.

IV. COMPENSATION:

The professional engineering services provided for in this contract will be performed by the Engineer on an hourly basis based on the following staff member rate schedule:
