**DISCLAIMER:** COVID-19 data are reported as timely, accurately, and completely as made available to us. Data are updated as we receive information that is more complete and may change over time as we learn more. The new case increase may not match the difference between today's and yesterday's total cases because of the daily removal of newly identified duplicates and out of state cases. Points on the map do not represent the actual location of cases or deaths. Cases reported include individuals with positive COVID-19 confirmatory test results reported to LDH. Cases are assigned to parish based on the residence of the patient. Patients may be hospitalized or seek care outside their Parish of residence. Case counts reported on the SCP Dashboard represent individual persons with positive results for COVID-19, not numbers of positive test results received. Multiple results are often reported for an individual (positive, negative, or otherwise) due to repeat testing, but a single positive test for each individual is used for case counting. LDH uses an extensive de-duplication process involving automated and manual review to account for non-exact person matches due to data entry errors, incomplete data, and other issues in the lab data reported to LDH. Despite our best efforts, there may still be a small number of duplicate records in our dataset, and these will be resolved as they are detected, which may lead to changes in case counts. The actual number of cases is likely higher

# ROAD LIGHTING MILLAGE RENEWAL

streets | roads | highways | alleys | public spaces

1.01 mills / \$1.5 million a year for 10 years

Hale Boggs Bridge and I-310 Lighting

Over 6,000 wooden and metal light poles

This renewal represents **NO NEW TAXES**

# **9-1-1 COMMUNICATIONS DISTRICT MILLAGE RENEWAL**

**9-1-1** is a critical component of public safety and a lifeline to the citizens and emergency responders in St. Charles Parish. The 9-1-1 personnel are deemed the first “first responders.”

1 mill / \$1.3 million a year for 10 years

Building renovations set for 2020

New software and hardware being installed and developed

This renewal represents **NO NEW TAXES**

# St. Charles Parish Library

Explore...Learn...Create...Connect

## MILLAGE RENEWAL

4.53 mil | 10 year funding

In the last 10 years, the St. Charles Parish Library opened new branches in Destrehan, Paradis, and Norco and renovated the West Regional Library in Luling while also increasing circulation by over 6%, increasing public computers by 85% and programs offered by 84%.

### FUTURE PLANS

- Plans for a new or upgraded branch in Hahnville
- Continue expanding and growing services to meet the needs of our community, including:
  - Internet and computer access
  - Programming for all ages
  - Community outreach and partnerships
  - Digital access to eBooks, audiobooks, and more
- Make necessary upgrades and improvements to existing branches

This renewal represents **NO NEW TAXES**

# Catch Basin Campaign in the Works

 **St. Charles Parish**  
Published by Samantha de Castro [?] · 6d · 🌐

Does your catch basin look like this?! 🙄

Catch basins and storm drains help direct water to pump stations but when they are covered with debris, water cannot flow freely.

With more than 14,000 catch basins parish wide, we need YOUR help to keep water flowing!

A quick sweep or shoveling of debris can go along way. If you are unable to clean it yourself, contact public works and we can help. 985-783-5102
