The one for Entergy is a replacement and its completely in the river so nothing really to do there.

The second one is also outside of the Coastal Zone Jurisdiction because it's in the River, but because it is a new fleeting operation, you should ask the local council person (Traci) if this is going to be an issue to the people of Montz. The council may want to make a comment even though the Corps rarely listens when it comes to barges.

Earl

Earl,

Please see the attached public notices and advise.

Thanks,

Nicole
