

ST. CHARLES PARISH COUNCIL
WORK ORDERS

COMPLETED

Department: PW

Work Order Number: 7905

Date Requested: 11/21/2017

Requesting Person: Hogan

Council District: B/4

Subject: Re-Establish swale in the servitude

Location / Address: 301 First Street, Bayou Gauche

Task: Please re-establish the swale in the 5' drainage servitude located immediately adjacent to the driveway at 301 First Street that was filled with dirt (and which is clear of sheds, fences, and any other structures) which is restricting the servitude from draining to First Street. (See the attached building permit, showing the location of the driveway and the drainage servitude in question, which has been filled). In lieu of removal of the dirt, the installation of a culvert from First Street to the end of the filled servitude will suffice, provided it re-establishes drainage of the servitude. #672

Forwarded To: Mr. Clayton Fauchoux

Process Comments:

Date Received:

Referred To:

General Notes: VOID per Clayton Fauchoux (10/30/18)
It has been noted that the culverts were upgraded on 1st, Matthew and Mark.

Date Completed/Closed: 10/30/2018
