RE: Permit Application for Valero Refining-New Orleans
COE# MVN 2010-2037 EPP
WQC# 100907-04

The above referenced permit is completely contained within the Mississippi River Levees. The proposed activity has no bearing on wetlands within St. Charles Parish. The permit therefore does not have to appear before the Coastal Zone Advisory Committee. The Coastal Zone Management Section, recognizing the fact that the project has no permanent impact on wetlands offers no recommendation in this case.
