Empty, or blank, cells indicate that a data observation was not reported.

*Ground Cover: 1=Grass; 2=Fallow; 3=Bare Ground; 4=Bare soil; 5=Soil; 6=Straw mulch; 7=Grass mulch; 8=Bare mulch; 9=Unknown

*S This data value failed one of NCEI's quality control tests.

T Values in the Precipitation or Snow category above indicate a "trace" value was recorded.

A Values in the Precipitation Flag or the Snow Flag column indicate a multiday total, accumulated since last measurement, is being used.

Data value inconsistency may be present due to rounding calculations during the conversion process from SI metric units to standard imperial units.

Jones Construction Solutions LLC, is requesting to document the following rain/mud days from April 1 through April 30, 2025, as listed below for the East Bank Bridge Park Improvements project located at 13244 River Rd, Destrehan, LA 70047. All work at this time on this project is exterior and civil work therefore it is subject to rain and mud days as deemed appropriate per the contract documents. The river stage has been above 11' from April 12 to present and is not forecast to drop below 11' for several more weeks. The total additional days for the river stage will have to be calculated after it has dropped enough to allow work to continue.

"S" This data value failed one of NCEI's quality control tests.

"T" values in the Precipitation or Snow category above indicate a "trace" value was recorded.

"A" values in the Precipitation Flag or the Show Flag column indicate a multiday total, accumulated since last measurement, is being used.

Data value inconsistency may be present due to rounding calculations during the conversion process from SI metric units to standard imperial units.

To: Civil and Environmental Consulting Engineers/Marco Jaurez
CC: St. Charles Parish Government

Jones Construction Solutions LLC, is requesting to document the following rain, mud, and river elevation days from July 1 through July 30, 2025, as listed below for the East Bank Bridge Park Improvements project located at 13244 River Rd, Destrehan, LA 70047. All work at this time on this project is exterior and underground civil work therefore it is subject to rain, mud, and river elevation days as deemed appropriate per the contract documents.

Rain days – 15

Mud days – 2

Total days requested - 17

Previous completion date – 8/4/25

New completion date (Civil sitework)- 9/26/2025

(Includes river elevation days for batting cages, foul poles, and drainage tie ins which were not included in June's request.)

River elevation days total - 64

New completion date (Lighting)- 9/29/2025

Sincerely,

Caleb Jones

Empty, or blank, cells indicate that a data observation was not reported.

*Ground Cover: 1=Grass; 2=Fallow; 3=Barren ground; 4=Snow; 5=Sod; 6=Straw mulch; 7=Grass mulch; 8=Bare muck; 0=Unknown

* This data value failed one of NCEI's quality control tests.

* At Obs. = Temperature at time of observation

* "T" values in the Precipitation or Snow category above indicate a "trace" value was recorded.

* "A" values in the Precipitation Flag or the Snow Flag column indicate a multiday total, accumulated since last measurement, is being used.

Data value inconsistency may be present due to rounding calculations during the conversion process from SI metric units to standard imperial units.
