RE: Permit Application for Carline Management
Barge Fleeting Facility Permit
Luling, Louisiana
COE# EM-20-010-2413

The above reference applicant is located at river mile 122.4 a.h.p., near Luling, Louisiana. The above referenced permit is completely contained within the Mississippi River. The proposed activity has no bearing on wetlands within St. Charles Parish. The permit therefor does not have to appear before the Coastal Zone Advisory Committee. Further the area in question has been used for barge mooring since 1964. The Coastal Zone Management Section, recognizing the fact that the project has no impact on wetlands, recommends that a letter of NO OBJECTION be sent.
