

Petition of Opposition To The Proposed Bocage Estates

This petition will be presented to the St. Charles Parish Department of Planning and Zoning on Thursday Dec. 6, 2007

We, the residents of Evangeline Road would like to formally express our **opposition** to the proposed Bocage Estates which will negatively impact our neighborhood for the following reasons:

- Increased Traffic
 - Evangeline Road is a narrow through street not designed for heavy through traffic
 - Has a traffic study been done and what are the findings?
Does it suggest the additional traffic
- Lack of Drainage
 - The runoff from surrounding areas drain through the ditches along side Evangeline Road, the ditches become overwhelmed causing them to spill over into the roadway sometimes enough to force the closing of Evangeline Road
 - What impact will this new development have on the drainage
- Lack of Street Maintenance
 - Evangeline Road is going through a period of major development with excavations being performed and the road only being patched causing bumps and potholes
 - Will the road be resurfaced and widen to accommodate the increased traffic

We would like this petition stand as a document of **opposition to the proposed Bocage Estates**

We are not against progress we are only against progress that negatively impacts our neighborhood.
