

Unfinished business – Planning Commission Rules

Commissioner Frangella: everybody had a chance to look them over? Can we make a change in the way they were presented here now or do we have to accept them as written?

Mr. Albert: We've provided this for yall tonight as effectively as a 99% ready to go version, if yall are happy with it, send a written request to us and we will forward it to the Council office to be put on the agenda as a resolution to formally amend your rules.

Commissioner Frangella: So if we would like to request a change?

Mr. Albert: You can tell us now

Commissioner Frangella: My only change would be under the order of business, #2 the adoption of the minutes after #6 the way we usually do our meetings with approving minutes, I think that works better because of the crowd in here, we let them clear out and then we approve.

Mr. Albert: Sure

Ms. Stein: Yes please consider that done

Mr. Albert: With that correction we will forward that to the Council Secretary and talk with the Parish President about getting that on the next Council agenda.
