Reference: Request for addition of Stop Sign in Ashton Plantation  
Intersection of Lac Laurier Dr. and Lac Verret Dr.

Ms. Julia,

I wanted to introduce myself, Fredy Henderson, and I am the recently appointed homeowner representative and HOA Class I Director for Ashton Plantation Homeowners Association (APHOA), and per discussions with the Parish Water Works department, was told this request needed to be submitted to you for consideration / approval.

We currently have two left turning entrances in the development from Ashton Plantation Blvd, and unfortunately, one of these entrances does not have a stop sign at the intersection of the entrance road and the main street within the development. The specific intersection is at the corner of Lac Laurier Dr. and Lac Verret Dr., and due to increased traffic, we are concerned about resident's safety and trying to avoid any accidents at this intersection. We would officially request consideration be made to approve the addition of a new stop sign, along with the additional warning sign for the two existing stop signs and the new sign "All Stop, or 3 Way Stop" be added, as well.

Our other entrance, Lac Calahoula Dr. and Lac Calcasieu Dr. already has the 3 stop signs and appropriate warning signs installed, thus the request to have the new stop sign added for consistency and more importantly, improved safety within our community.

I genuinely appreciate your assistance with this request, and should there be any questions, please don't hesitate to give me a call at (281) 382-2910 or via email at [poppafredy@gmail.com](mailto:poppafredy@gmail.com).

Respectfully yours,

Fredy Henderson  
APHOA Class I Director
