WINTER WEATHER REMINDERS

Water System Freeze Precautions

EXPOSED PIPES

- WRAP PIPES
- SHIELD FROM WIND
- DO NOT DRIP FAUCETS
- KEEP METER BOX CLOSED

Exposed pipes should be wrapped with insulation, towels, newspaper or old clothing and shielded from the wind with plywood, felt roofing, plastic or cardboard.

DO NOT DRIP FAUCETS as a drip can cause a loss of pressure and drop of quality in the water system.

The meter box cover must be kept in place with the lid closed to keep meters from freezing.
