Subject: re zoning for lots 13,14,15,16, Sq. 13, St. Rose Subdivision (9326 sq ft), 415 Oak Street, St. Rose

Dear Sirs,

I apologize for any confusion that my previous letter caused. I misidentified the property in question. The property at 415 Oak Street has for some time been used for multiple families. There is probably not a rational way to rezone the property without permitting commercial leasing. But since this property has for at least 10-12 years including an ownership change been used as a multi family dwelling I retract my previous objections. Furthermore the comments regarding lack of upkeep were directed at a different property.

Sincerely,

Randy Wegmann, DVM
