

ST. CHARLES PARISH

PAUL J. HOGAN, PE

COUNCILMAN, DISTRICT IV

MEMORANDUM

3rd Request
9-14-09

DATE: MARCH 24, 2009

TO: MR. V.J. ST. PIERRE, JR.
PARISH PRESIDENT

FROM: PAUL J. HOGAN, PE
COUNCILMAN, DISTRICT IV

The Parish Council adopted Resolution No. 5577 asking the Louisiana Department of Transportation and Development to take the necessary steps to raise U.S. Highway 90 at the Paradis Canal so that the Sunset Drainage District can tie its levee into the Highway embankment. I received the attached letter dated October 7, 2008, from the Highway Department stating that this is considered a flood control issue rather than a highway operations issue. As such, it is suggested in the letter that the Parish seek funding through the State Capital Outlay or another funding program in order to allow the State to assist with coordination of the project. Also attached is the estimate from the Highway Department indicating that the raising of the Highway will cost approximately \$600,000.

I am requesting that the Parish's Grant Officer be allowed to apply for Capital Outlay funds for this project or any other funding source that is available.

Please advise.

Barbara Jacob-Tucker
Council Secretary
St. Charles Parish Council
Post Office Box 302
Hahnville, LA 70057

Dear Ms. Jacob-Tucker:

This is in reference to your letter dated September 23, 2008 concerning St. Charles Parish adopted Resolution No. 5577 requesting the department to take the necessary steps to raise US 90 at the Paradis Canal to provide for continuity of flood protection.

We have referred this request to our Area Engineer, Mr. Chris Morvant, who met with Councilman Hogan on site. The problem identified is a flood control issue rather than a highway operations issue. It is our suggestion that St. Charles Parish seek funding to complete this work through the State Capital Outlay or another funding program. This office has been working with Councilman Hogan regarding this and will continue to provide any assistance we can with project coordination once a funding source has been identified.

Sincerely,

MICHAEL J. STACK, P.E., P.L.S.
DISTRICT ADMINISTRATOR

Paul,

Below is the information regarding the raising of the road. As discussed, we estimate it will cost approximately \$600,000. Please call if you have any questions or need any additional information.

Thanks,

Subject Re: Fw: Raising Hwy 90 in Paradis - Sunset Drainage Dist. [Link](#)

Mike,

I took the NOAA elevations assumed a roadway cross-section with 6:1 side slopes, laid out a vertical curve with 4:1 side slopes to develop quantities to raise the roadway to elevation 8.0'

11/7/2008

Asphalt (2,258 tons) - \$248,413.00
Limestone Interlayer (2,954.8 Cu Yd) - \$112,283.40
Selected Soils Embankment (2,483.8 Cu Yd) - \$12,418.75

Total - \$ 373,115.21

If you look at the attached file, the existing canal is a box culvert under the roadway. This would have to be extended on both sides to accommodate the raising of the roadway.

Possible problems:

- Existing ROW
- Driveway slopes to existing businesses after raising highway
- Drainage
- Intersection of the exist. roadway at the crest of the vertical curve.

All of these concerns may add additional cost the project.

Subject Fw: Raising Hwy 90 in Paradis - Sunset Drainage Dist.

Look at NOAA elevations for this location, need a rough estimate of cost to raise US 90 to elevation 8'. Doesn't have to be detailed but only rough, so that we can give to parish.

Mike

Subject Raising Hwy 90 in Paradis

Chris

Thanks for taking the time to visit the site where we are requesting that Highway 90 be raised in Paradis. Please advise on the process needed to have this implemented as quickly as possible. You had mentioned that funding may have to be through Capital Outlay. Please explain to me the Capital Outlay process and who needs to do what if that is the case.

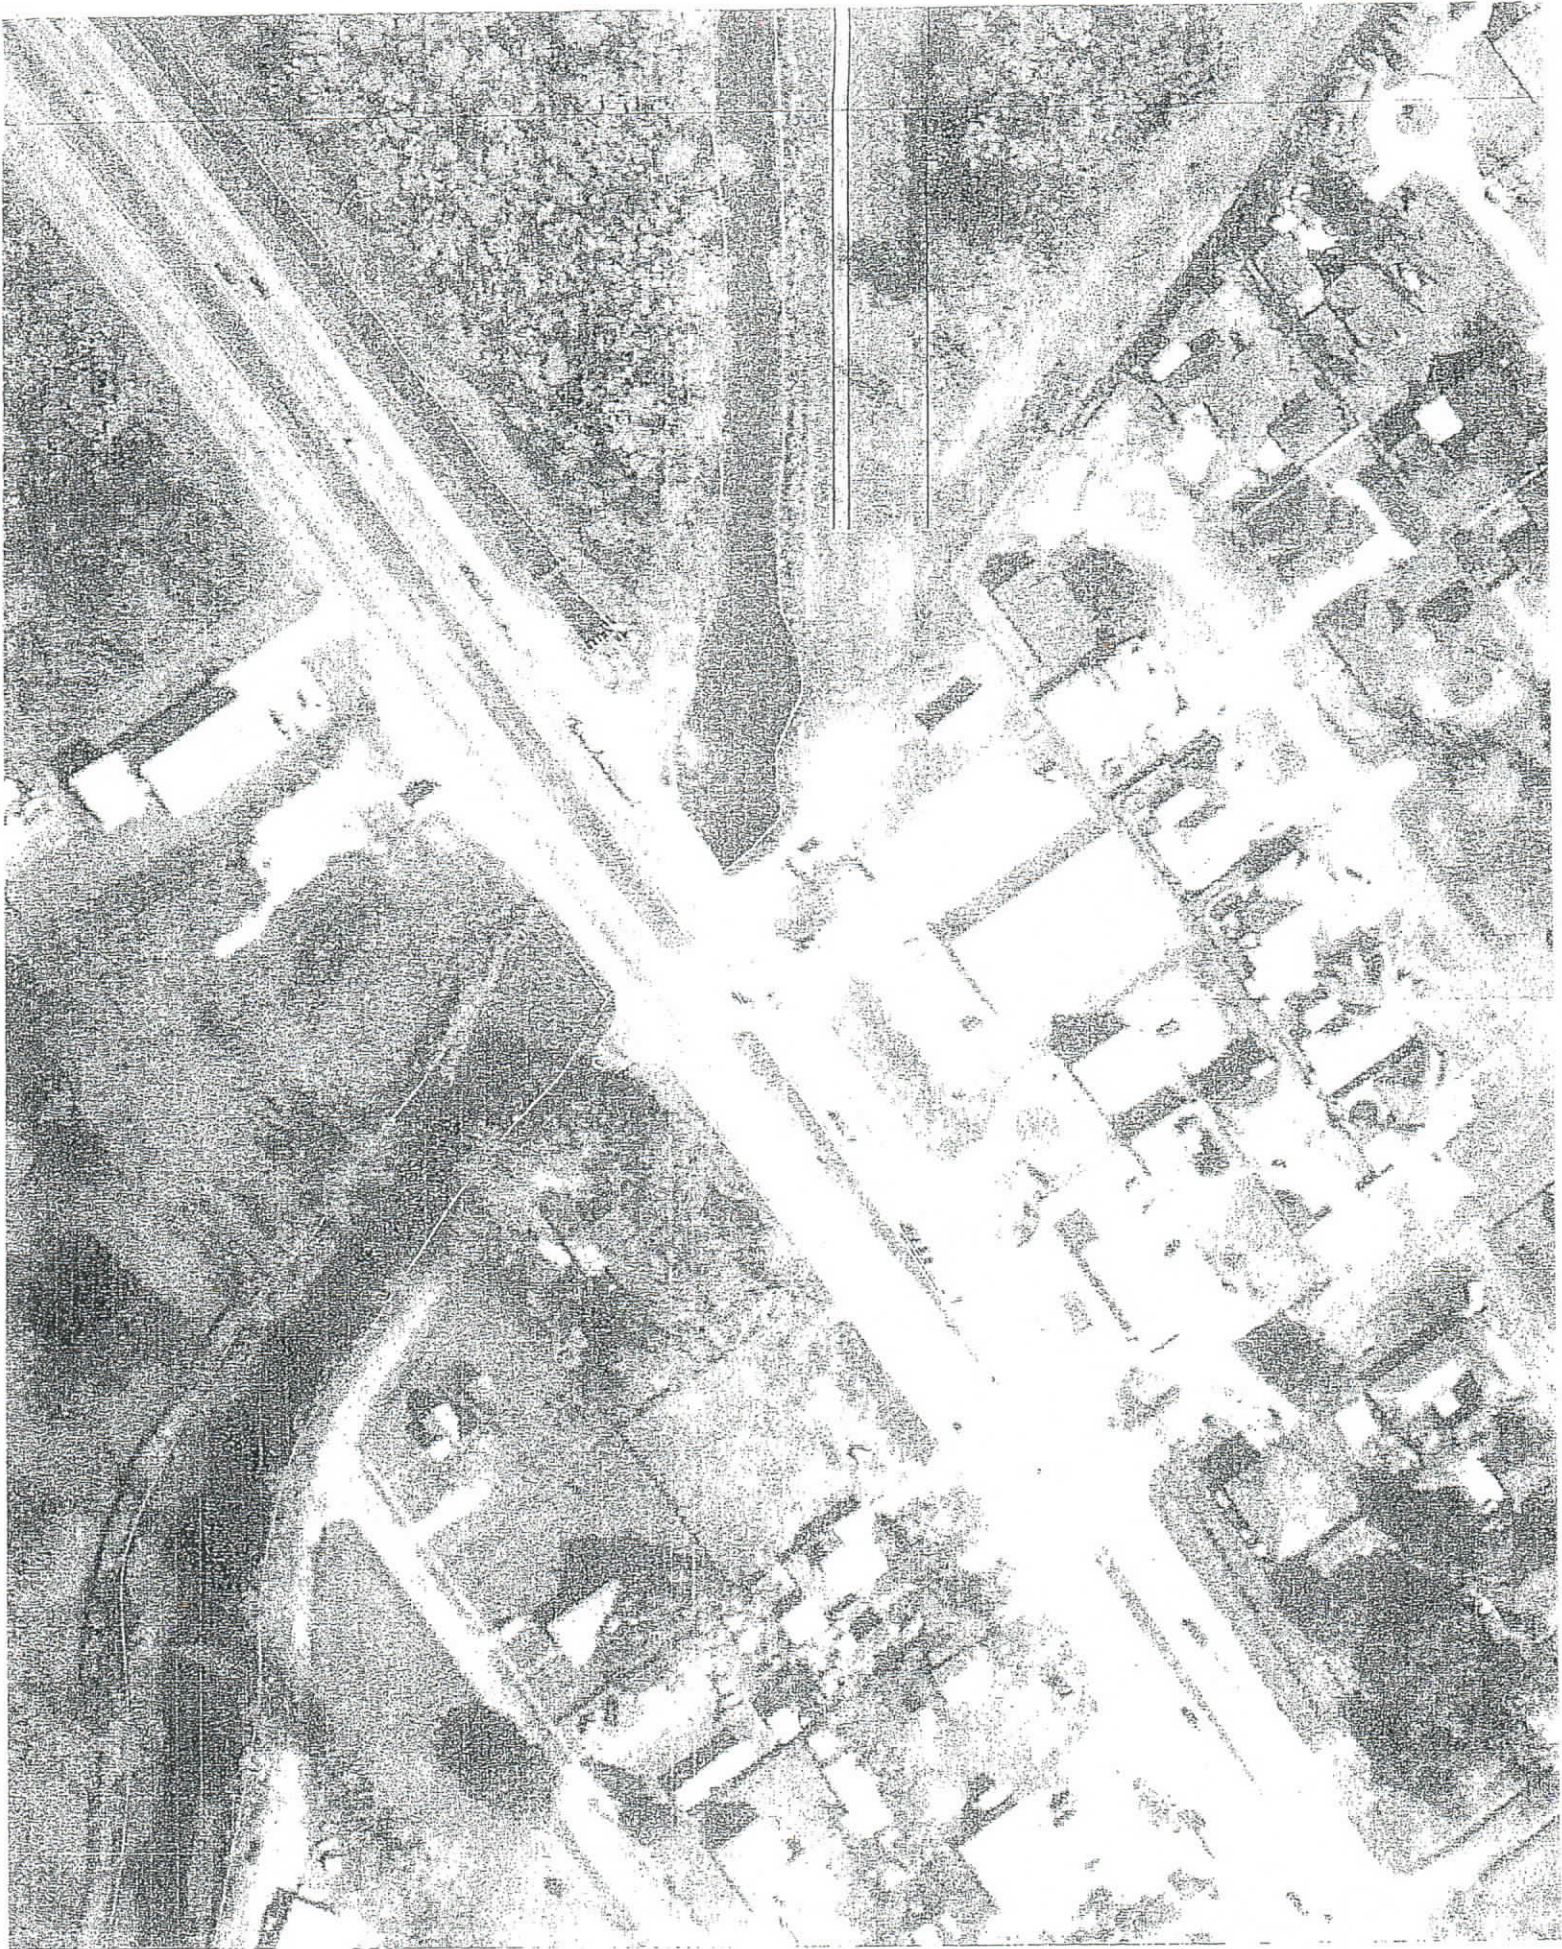

Thanks

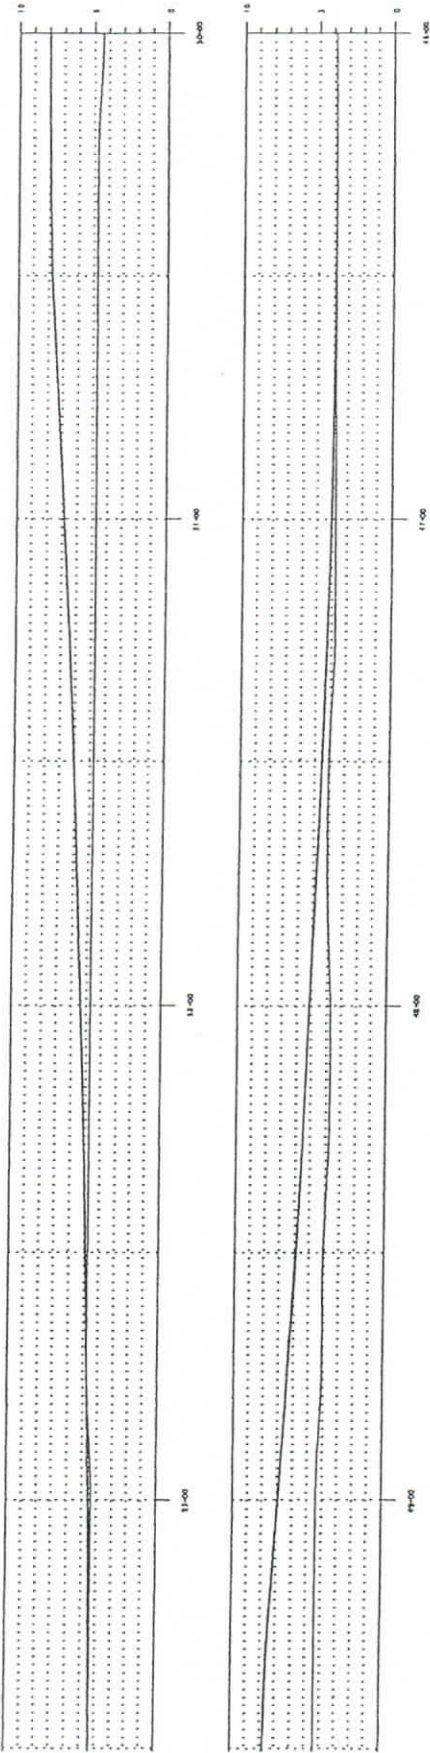

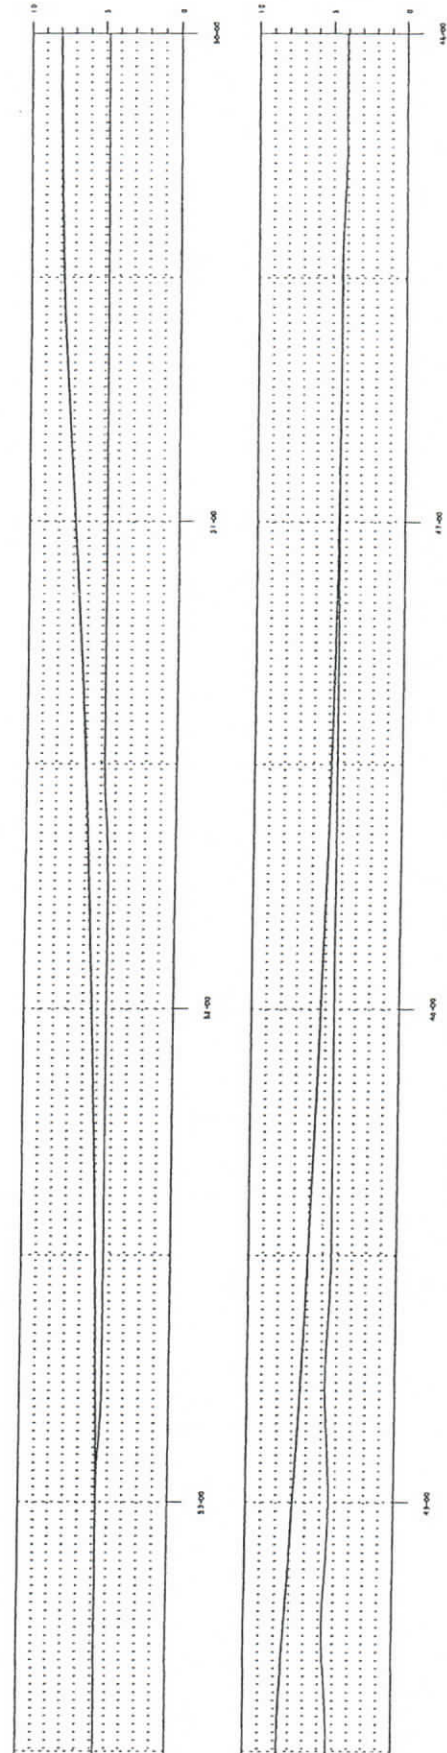

Paul J. Hogan, PE, District IV Councilman
