RE: Permit Application for Bayou Fleeting, Inc.
COE# M-19-970-5027

The above referenced permit is completely contained within the Mississippi River Levees. The proposed activity has no bearing on wetlands within St. Charles Parish. The permit therefor does not have to appear before the Coastal Zone Advisory Committee. The Coastal Zone Management Section, recognizing the fact that the project has no impact on wetlands, recommends that a letter of **NO OBJECTION** be sent.
