**Subject:** Pons Special Permission at 236 Evangeline Rd!

**Mr. Romano,**

Per our telephone conversation of Tuesday July 5, I'm submitting my concerns as a resident of 229 Evangeline Rd.

This is a quiet residential street and I'm concerned about additional noise, vehicles, trailers buildings, etc. on Mr. Pons property or adjacent to! He already has a large steel building and several large trailers to keep his drag racing cars. He works on these continually and when he starts up the cars there is a lot of noise at various hours! (Is a license or permit required for this)?

I'm concerned about more noise, additional vehicles, and congestion if special permission is granted to operate the following home occupation. I know several elderly residents that have concerns about the noise issues!

Sincerely,

James Erchull
