Wendy,  
Can you print this to the folder for the Becnel rezoning request.  
Thanks  
marny

Marny:

I plan on attending the P& Z mtg on Thursday night to comment on this above request for rezoning. But in case something intervenes, I would like to register the fact that I agree with denial of this permit. The Ama Land Use Study for a long and well-thought out process and the people on Amelia, Griffen & Allen Streets made clear their feelings that all lots not currently occupied by mobile homes should be zoned R(1)A. This was approved by the P & Z Commission and approved unanimously by the SCP council. People on these streets should not have to again defend these decisions.

I would also ask that the standards recommended in the study for mobile homes be applied to any replacement mobile homes on lots grandfathered in.

Thank you,

Jara D. Roux
