Re: PZR Case 2008-04

Dear Sir:

I am objecting to this zoning change for the following reasons:

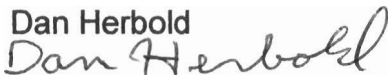

1. Bunge's M-3 zoned property is not in compliance.
2. Problem with their R-1A property, located across the street from our property is not cleaned up.
3. This zoning change should be denied so that Parish government can maintain credibility with other property owners in St. Charles Parish.
4. Bunge Corporation has been discharging grain dust onto our property on a regular basis since 1970.

Enc: Letter to Planning and Zoning Department complaining about Bunge property zoned R-1A being used as a pipe-storage and truck parking yard.

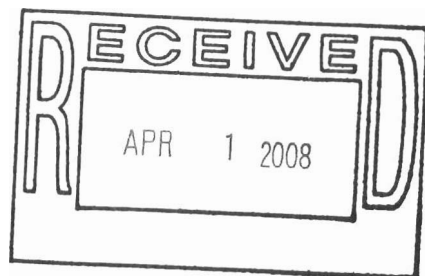

If this zoning change is granted to Bunge, I would like to have your reasons in writing.

Sincerely,

Dan Herbold

Dear Sir:

The Water Department is using land zoned R-1A next to our property as a pipe-storage and truck parking yard. I would like to go on record as objecting to this practice. We don't want our neighbor to say at a later date that this type of activity is grandfathered in.

I would like to have these pipes and trucks moved to a more suitable location in the Parish, and then our neighbor can mow down the tall weeds that have grown up around the stacks of pipes.

On October 31st, 2007 a truck being parked on this property pulled down our Cox Cable that crossed over-head on Aime Street. Cable service was reconnected on Thursday November 1, 2007.

It's possible that all of this is just a misunderstanding and that our neighbor and the Water Department really do possess the intelligence, common sense, and decency to be more considerate.

Sincerely,
Dan Herbold
