Mr. Palamone:

I wanted to reach out to you regarding the current mosquito abatement contract that our entity, St Charles Mosquito Control LLC, has with the parish that is set for initial term completion on 31 March 2022. Since funding has now been secured for the continuation of the service through the millage renewal at the end of 2021, it is the desire of St Charles Mosquito Control LLC to exercise the five-year extension option detailed in the current agreement at the same rates and pricing structure described therein. As manager and director of St Charles Mosquito Control LLC, I have the proper authority to execute said extension upon mutual agreement. Our team appreciates being able to be of service to St Charles Parish over this past term and welcomes the opportunity to be of continued service to its residents. If you have any questions or would like to discuss the option in more detail, please let me know.
