

Mr. Albert: We've been looking at the Planning Commission rules; I will start with the question we were asked last time. In order to change your meeting time, if that is so desired, you will have to amend your Commission rules. So I think there's been some discussion or desire to move the meeting times to 6:30 or even 6:00 to mirror what the Parish Council does and if that is the desire we will prepare the change in the rules, provide that for you at the December meeting and then take it to the Council in January.
