	Significant Assumptions and Observations About the FY 2019 Forecasted E	xpenditur	es		
1	The board has decided to provide an "across the board" raise to all employees this year equal to 1% plus .25 cents.				
2	Fringe benefits consist of payroll taxes, deferred comp match, and health insurance premiums. As salaries and wages rise or decline, so do the matching amounts will vary based on employee participation in the program. Health insurance premiums vary based on the number of employe employee. The amount of the COA subsidy can also change based on the circumstances. The COA will pay 65% of employee premiums for FY19	es participatir			
3	Travel expenses have decreased due to the COA employees no longer needing to use their personal cars for travel. It is anticipated that operating services will decrease slightly for FY19.				
5	Operating supplies is expected to increase during FY 2019 mostly related to the anticipated rising cost of fuel.				
6	Other costs is an area that is not affected very much by the changes in the COA services, but management expects a small decrease. The increase in subcontracted services is due to management's decision to increase services to seniors in the community in order to meet dema	nd.			
7	Senior Center costs have slightly increased due to increase in utilities and facility supplies.				
	The meal price has decreased from \$3.26 to \$3.07.				
10	The local wellness program [Fitness class at local gym] will no longer be a service the COA provides. Management has decided to bring back all special activity events for FY19 at a slightly reduced cost from fiscal years prior to FY18.				
	Local Material Aid is not expected to be an expense during FY19.		deliseerd morel	ander This	
	The COA provides meals to those under 60 years old if they are are (1) homebound and (2) live with a person who qualifies for and is already re funded by a grant received from United Way.

14	The indirect and insurance costs charged by the Parish and pension plan charges are beyond the COA's control. Management has based the bud this number could change unexpectedly. The COA expects to acquire two (2) FTA funded vans in FY19 @ the cost of \$54,918 each and \$20,000 for bathrom renovations at New Sarpy.	get on what h	as been the case	in prior years.	However,

St. Charles Council on Aging, Inc. Management's Forecasted Contingency Plan For the Year Ending June 30, 2019

Unforeseen events and client demands could result in the Council overspending certain expense categories. Management is aware of this possibility and is building into the budget some amount of flexibility that can be tolerated based on the Council's current financial position.

EXPENDITURE CATEGORIES

Salaries:

- 1.) The wages are computed using the "grade" that each employee will move up to during the fiscal year. The employees reach their new grades at different times during the fiscal year, but the budget reflects wages as if everyone stepped up to their new grade on July 1st.
- 2.) The Assistant Director position could be changed to salary or restricted from having over-time hours.

Fringe Benefits:

- 1. The COA could increase the cost sharing amount the employees pay to obtain health insurance.
- 2. The COA could discontinue company paid benefits.
- 3. Any wage reductions have a multiplying effect because you also save on FICA and LUTA.

Operating Services:

Insurance coverage could be reduced by increasing deductibles or eliminating vans in an effort to reduce the premiums.

Other Costs & Subcontracts:

The quickest way to save costs would be to look at the subcontracted services and cut back on the number of units provided. The savings is easy to determine. The board would have to make a subjective decision on which services to cut back. This option may be unpopular because it will cut services to the people that the COA is designed to serve.

Capital Outlay:

Capital Outlay costs could be elimated if necessary.

The actual results may vary from the forecast and the variations may be material. This presentation is intended for internal use only and should not be used for any other purpose. See accompanying summary of significant assumptions.

St. Charles Council on Aging, Inc. Summary of Significant Assumptions Restricted For Internal Use Only For the Year Ending June 30, 2019

Significant Assumptions:

The assumptions made by management and disclosed in preparing the forecast may not be all inclusive. However, the assumptions represent what management believed significant at the time the schedules were prepared. The assumptions were based on management's judgment about circumstances and conditions at the time the forecast was prepared, which was May 17, 2018.

The forecast was prepared using schedules designed to help the board of directors and management easily understand and discuss the key components of the Council's revenues and expenditures for next year's budget.

The schedules present varying degrees of details and summarized information.

This information has been extracted from the budget the Council had to prepare to fulfill a compliance requirement of the Governor's Office of Elderly Affairs.

Because events and circumstances frequently do not occur as expected, the forecasted results may not be achieved and the actual results may vary from the forecast and the variations may be material.

The significant assumptions made by management in arriving at the amounts used within these schedules are presented on the face of the schedules for ease of use and understanding.

There are no assumptions included for the summarized FY 2018 amounts presented in any schedule because these amounts are summarized for ease of presentation. The focus of this forecast is on the fiscal year ending June 30, 2018.

There are some assumptions that are sensitive and could fluctuate in amounts that could materially affect the forecast.

- a. Management has developed a contingency plan that it could implement to save money should actual results exceed forecasted amounts during the year ending June 30, 2019.
- b. Wages could vary if management decides to cut back the number of hours worked during the week.
- c. Gasoline costs vary with market conditions and could be much higher or lower than forecasted.
- d. Property tax revenues could be affected if the valuation of the property tax base in St. Charles Parish declines.

 Management is unable to know now what that valuation base amount will be because the Parish's assessor won't release the information until November 2018.
- e. The federal and state governments are struggling with their own budgets and could make cuts to grants and programs during FY 2019 that could affect the amount of revenue forecasted from the Governor's Office of Elderly Affairs.

		THE REPORT OF THE PROPERTY OF	NAMES OF THE PARTY

2019 Proposed Budget

NOTES

NOTES TO THE 2019 BUDGET: REVENUES

Line 01: The projected Fund Balance from Previous Year is based on actual revenues and expenditures as of July 25, 2018 and projected expenditures through the remainder of 2018. It

does not include projected new revenues from the 2018 tax roll. Those are included on Line

02 as new receipts for 2019.

According to the comprehensive annual financial report prepared by the Finance Department, the library had a fund balance of \$6,275,233 as of the end of 2017. As of 7/25/2018 the library's revenues totaled \$5,644,895 and expenditures totaled \$3,119,416.05. We are estimating total expenditures for 2018 to be a little over 6.6 million dollars, leaving an anticipated ending fund balance of approximately \$5,310,847.

Line 02: Revenues listed on Line 02 are estimates of Ad Valorem Taxes to be collected for the library

on the 2018 tax roll. These funds will be collected primarily in 2019.

The estimate is based on reports provided by the Finance Department. The millage rate for the library was set at 4.5 mills in 2010 by voters. It was rolled back to 4.45 in 2012 and was rolled back to 4.35 in 2017, where it currently remains. For the coming year, we do anticipate an increase in revenue based on projections from the parish Finance department.

Line 03: The library receives reimbursement for Internet and data lines each year through the FCC

Universal Service Program, also known as eRate.

Line 04: This line includes any State Library Grant funding for technology enhancements. The

funding from this source has been dramatically reduced, and I have chosen not to include any

funding from this source this year.

Line 05: This line shows the amount of anticipated State Revenue Sharing based on figures from the

> Parish Finance Department. The Office of the State Treasurer determines the amount of revenue sharing funds each eligible recipient body is to receive. Eligible tax recipient bodies are those supported by ad valorem taxes and whose millages are included in the Revenue

Sharing Act. The amount listed is what is due to the library after statutory deductions.

Line 06: Photocopy Receipts are based on figures for past years.

Line 07: Miscellaneous Revenues include library card replacements, planetarium fees and other

charges. Increased based on miscellaneous revenues received in the past several years.

Line 08: Fines for Overdue Materials are based on figures for past years.

Line 09: **Interest Earnings** are based on estimates provided by the Finance Department.

Line 10: No amount is budgeted for **Gifts and Donations** because they are generally very modest and

should not be counted on as significant sources of revenue.

Line 11: TOTAL NEW RECEIPTS are projected new revenues to be earned in 2019.

Line 12: TOTAL NEW RECEIPTS AND FUND BALANCE FROM THE PREVIOUS YEAR.

NOTES TO THE 2019 BUDGET: EXPENDITURES

Lines 13-17: The Parish uses the April to April CPI for All Urban Consumers to determine cost of living increases. That index showed a 2.5% increase. It is my recommendation that a 2.5% cost of living adjustment be approved for the library.

Personnel salaries reflect costs for a few possible additional increases (proposed additional step increases are based on exceptional performance and/or increased responsibilities), and a small amount is set aside should there be a decision to give any mid-year merit increases.

Two additional part-time positions have been budgeted for to help meet the increasing demand for the library to provide outreach services and other programs in the community. One additional full-time position has also been budgeted for. This would be for a Human Resources Manager.

Re: 2018-2019 Budget Submission for SCPHA

Dear Mr. Cochran:

St. Charles Parish Housing Authority (SCPHA) is pleased to submit the 2018-19 SCPHA Budget. We appreciate your concern and the assistance you have provided throughout the year and look forward to a productive year. Additional activities are planned for enhancing designated housing areas as well as the quality of life for our clients. Progress has been made with the limited resources at our disposal, however we are attempting to use the funds more creatively and seek additional resources in the future.

SCPHA appreciates your continued support in helping to achieve our mission. Thank you for your encouragement.

Respectfully

Leatrice Hollis
Executive Director
