#### **REVISIONS TO ORIGINAL RFP PAGES – NONE**

#### **CLARIFICATIONS AND POINTS OF INFORMATION**

- |         |   |
|---------|---|
| ADD 1-1 | SCP received several inquiries concerning payment and performance bonds. We have decided to <b><u>waive all requirements</u></b> for both the letter of surety in the submittal and obtaining the bonds following a Notice to Proceed.                                    |
| ADD 1-2 | As stated in the RFP, a proposal with the highest evaluation score will not necessarily guarantee selection for a contract. SCP will select a proposal that will be in the best interest of the Parish.   |
| ADD 1-3 | SCP is interested in knowing if your business can supply engineering/technical assistance during a storm event. As part of your submittal, include a standard rate sheet for additional engineering services such as design, drafting and other technical type personnel. |
| ADD 1-4 | Although monitoring expenses can be reimbursed by federal dollars and have to follow requirements as stated in exhibit D, contractor will <b><u>not</u></b> have to adhere to requirements under the Davis-Bacon Act.   |
| ADD 1-5 | As stated in the RFP, the pre-proposal meeting held on June 27, 2017 was mandatory. Only those attendees listed on the attached sign in sheet can submit proposals.   |
