Appendix A. Section XV. - Amendment procedure

- D. Rezoning guidelines and criteria: The proponent for a change should present reasonable factual proof that two or more of the following criteria are met:
 - 1. The proposed rezoning conforms to land development pattern established by the St. Charles Parish Comprehensive Plan Future Land Use Map and does not create a spot zone that is incompatible with the surrounding neighborhood.
 - 2. The Land-use pattern or character has changed to the extent that the existing zoning no longer allows reasonable use of the applicant's property, and that the proposed zoning does. In order to determine what is reasonable use of the property, the proponent for the zoning change should consider one or more of the following:
 - a. Consideration of uses on adjacent properties that would limit the use of the site under consideration.
 - b. Consideration of unique or unusual physical or environmental limitations due to size, shape, topography or related hazards or deficiencies.
 - c. Consideration of changes in land value, physical environment or economic aspects which can be shown to limit the usefulness of vacant land or buildings.
 - 3. Potential uses permitted by the proposed rezoning will not be incompatible with existing neighborhood character nor will they overburden public facilities and infrastructure.

The Planning Staff shall base rezoning analyses on these criteria but shall not be prohibited from factoring unique circumstances of the application into the analysis. The Planning and Zoning Commission may state in its recommendations to the Council: its concurrence with, or rejection of, any or all of the proponents' case for the suggested amendment, and/or its position relative to proponents' statements on the case. Planning Staff analyses and recommendations shall be forwarded to the Council along with the Commission's recommendations.
- E. Rezoning approval criteria: Before the Council votes to approve a rezoning, there should be reasonable factual proof by the applicant that:
 - 1. The proposed map amendment is in compliance, or is not in conflict, with the goals and recommendations of the St. Charles Parish Comprehensive Plan and Future Land Use Map, also
 - 2. The proposed map amendment does not negatively impact the health, safety, and welfare of the community.

REZONING GUIDELINE & CRITERIA EVALUATION

- 1. *The proposed rezoning conforms to the land development pattern established by the St. Charles Parish Comprehensive Plan Future Land Use Map and does not create a spot zoning that is incompatible with the surrounding neighborhood.*

Lot 16 is designated *Low-to-Moderate Residential*, which recommends single-family development as permitted in the R-1A, R-1B, and the requested R-1A(M) zoning districts.

Per the Parish definition a spot zone “...gives to a single lot or a small area *privileges not extended to other land in the vicinity and which is not done in furtherance of the comprehensive plan.*” In this instance manufactured homes are adjacent to the River Road side and rear of Lot 16, part of a larger manufactured home park consisting of 16 manufactured homes. While the manufactured home park is non-conforming to a number of spatial minimums specific to that district, the zoning still permits its use for multiple manufactured homes. Following this, it cannot be said a rezone to R-1A(M) on Lot 16 grants “privileges not extended to other land in the vicinity.” Coupled with meeting the Comprehensive Plan designation, this is not a spot zone. **The request meets the first guideline.**

- 2. *The Land-use pattern or character has changed to the extent that the existing zoning no longer allows reasonable use of the applicant's property and the proposed zoning does.*

The existing zoning does not allow reasonable use of the applicant’s property. R-1M is use specific, allowing only for manufactured homes and RVs within larger park developments. It is not intended for the permitting of single homes on single lots like the R-1A and R-1A(M) districts. Unless Lot 16 is made part of the adjacent manufactured home park its R-1M zoning makes it undevelopable. The proposed R-1A(M) zoning would allow development of a single manufactured home on the lot. **The request meets the second guideline.**

3. *Potential uses permitted by the proposed rezoning will not be incompatible with existing neighborhood character nor will they overburden public facilities and infrastructure.*

The requested R-1A(M) zoning permits uses primarily limited to site-built and manufactured homes. Most notably, the manufactured home which could be permitted would not be incompatible with the existing neighborhood character. As referenced under Criteria 1, the boundaries of a manufactured home park are adjacent to the side and rear of Lot 16. An additional manufactured home on Lot 16 would not appear out of place given the presence of those manufactured homes within the adjacent park boundaries.

The proposed R-1A(M) zoning would not have any more impact on utilities compared to the existing R-1M zoning. No overburdening of public facilities is anticipated and representatives from the Departments of Public Works, Wastewater, and Waterworks have no objections to the rezoning. **The request meets the third guideline.**
