Attachments: 01.27.11 C.O. Request.xls; Golden Harvest Submittal No. 1 - Prescott Canal.pdf

Dennis –

I spoke with Greg Schultz of St. Charles Parish about the options for the gates, and we agree that the option for adding 12" in height to the gate as submitted would be best suited for this project. We understand that this will result in a total project cost increase of \$1880, which we will have to process via Change Order with Council approval; but this expenditure does have the recommendation of Evans-Graves and the St. Charles Parish Project Manager.

We will review the shop drawing accordingly and return within the next few days.

Greg: The Change Order pricing document and submittal are attached for your information and records.

Thanks again –
Stephen, E-G

Subject: Prescott canal Control gates

Stephen,

One other bit of information regarding the required gates. Yesterday Golden Haqrvest told me that if we can get approval this week, they have a spot open in their production scheule which will allow them to ship these gates in mid-March. We'd definitely be done prior to Hurricane season if that happens.

Thanks,
Dennis L. Switzer
