Parish President's Report

July 22, 2024

President Matthew Jewell

Destrehan No. 2 Pump Station Update

Schexnaydre Pump Station Improvements

Pump Station Gauge Installations

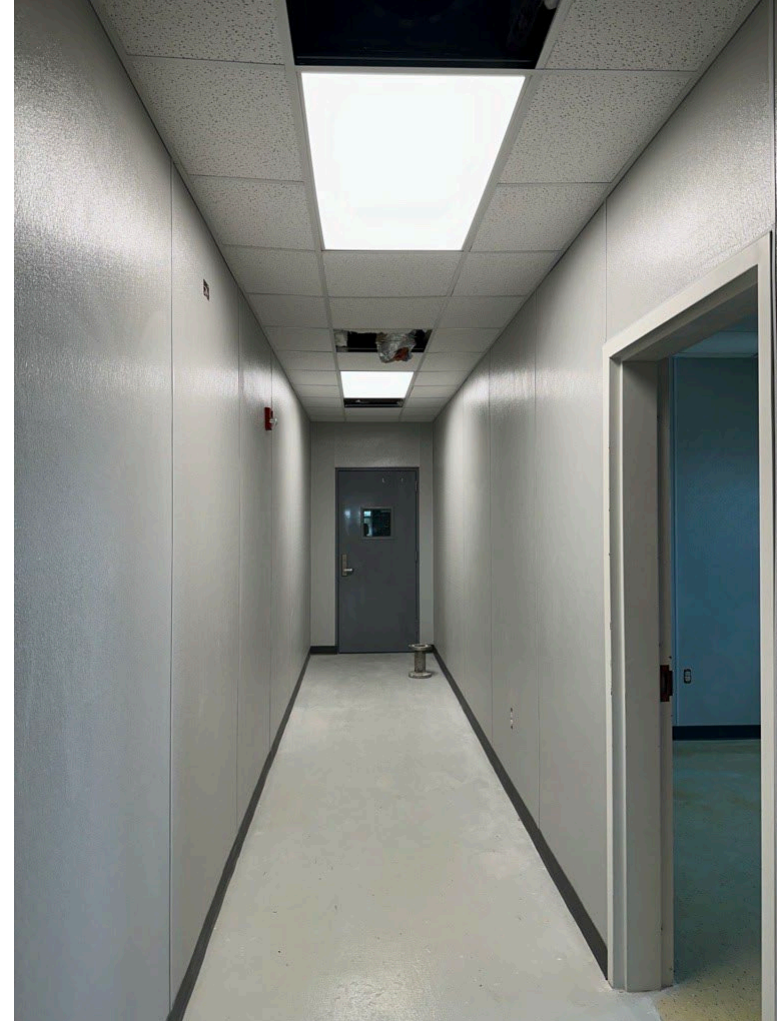

Willowdale @ US 90 Turn Lane Project

Paul Maillard Road Update

Waterworks East Bank Ida Repairs

Waterworks East Bank Intake

Immediate Platform Support

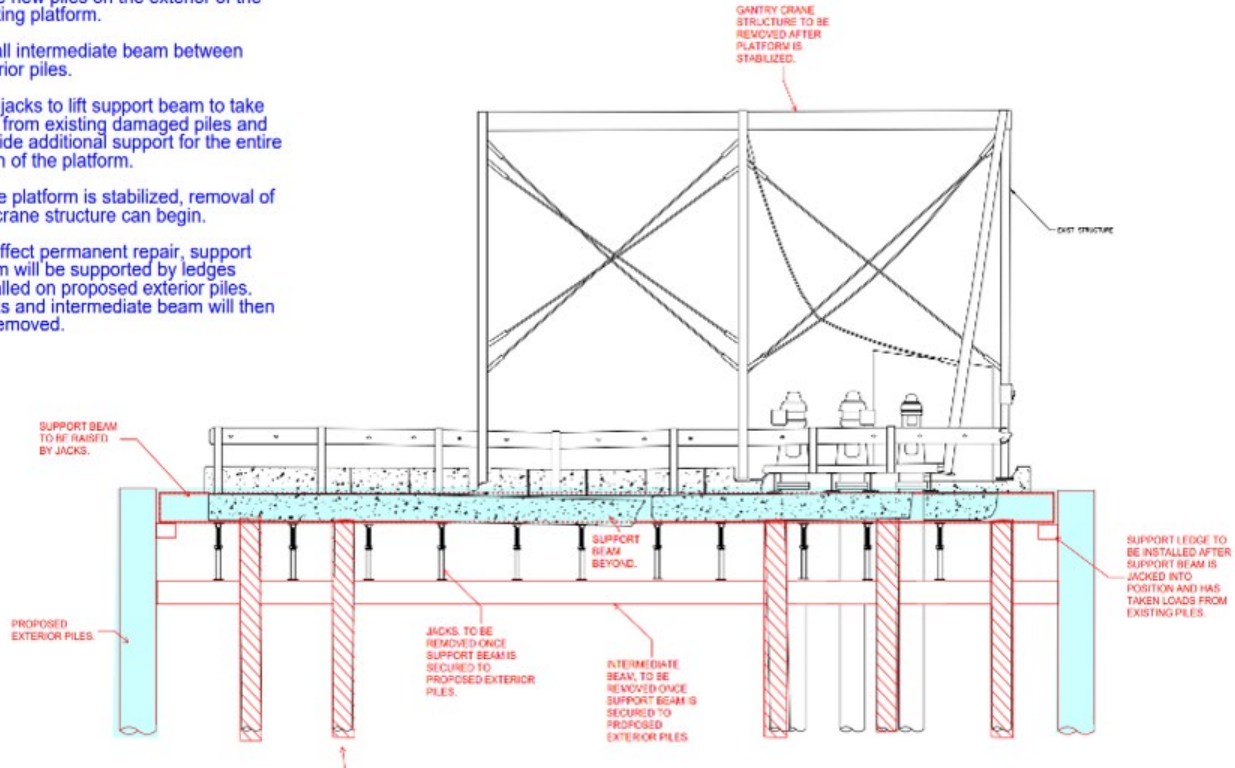

Drive new piles on the exterior of the existing platform.

Install intermediate beam between exterior piles.

Use jacks to lift support beam to take load from existing damaged piles and provide additional support for the entire width of the platform.

Once platform is stabilized, removal of the crane structure can begin.

To effect permanent repair, support beam will be supported by ledges installed on proposed exterior piles. Jacks and intermediate beam will then be removed.

Hurricane Ida Sheltering Update

Ida Sheltering Program Leases

Units Leased: **571**

Leased Units Still in Use: **0**

Commercial Sites Leased: **2**
