St. Charles Parish Portable Message Boards
Local Road Safety Project Update

Dear Parish President St. Pierree,

Project 01-STCa-12007 has been tentatively approved. The Local Road Safety Program's goal is to improve safety on Local Roads. We request some clarification on the safety issues that will be addressed by the requested surveillance cameras. In addition LTAP and the LRSP request to see if the cameras have the ability to gather data that can be used in conjunction with surveillance. Please clarify the specifications and intent of the camera option before final approval can be made on the message boards.

Thank you for your participation in this collaborative effort to improve the safety of Louisiana's local roads. If you have any further questions or comments please feel free to contact LTAP at the above information or email to all of the following:

rick.holm@la.gov

jason.taylor@la.gov

mary.mcadams@la.gov

Sincerely,

Jason Taylor, P.E.
Local Road Safety Engineer
