

Status Report

**LLOX, L.L.C.
Riverbend Prospect**

June 2, 2016

Operations Since Last Report

- access road, ring levee and the well location were completed on May 26
- the water source well was drilled on May 25
- cleaned the location and road and hauled off trash
- installed a gate with a lock at the front end of the road

Operational Forecast – Next Two Weeks

We are waiting on the arrival of the drilling rig to be used for the Riverbend Prospect well. The rig will move to our location as soon as it is finished with its current job. We estimate the rig arrival to be June 15 – 30.

Additional Information

We plan to have a guard posted at the gate 24 hours a day once the rig arrives in order to monitor access to and from the well location.
