Adjustments to utilities, however, may be included in the plans. Adjustments are dealing with vertical positioning alone (up or down). Relocation is dealing with the horizontal positioning of a utility. Any questions concerning whether work is an adjustment and eligible to be included on the plans should be submitted in writing to the Safe Routes to School Coordinator.
7. The Sponsor will submit copies of letters from each utility company stating that arrangements have been made for all required relocations and/or adjustments to the District Utilities Representative and the Safe Routes to School Coordinator prior to federal authorization for construction letting. Federal authorization is requested 6 weeks prior to letting.

9. After completion of preliminary plans, two (2) complete sets of prints of the basic plans, dated and stamped "Preliminary", shall be submitted to the DOTD for review and comment.
10. Upon completion of its review of the preliminary plans, the DOTD will return one (1) set to the Sponsor with comments, if any, marked thereon and the plans shall be corrected accordingly.

taking lines required for right-of-way, referenced to the centerline of the adjacent roadway, if applicable.

13. After plans have been developed to show all final design information and quantities, the Sponsor shall provide one (1) signed and stamped set of vellum reproducibles and/or prints of the final plans, with the Title Sheet matte filmed, and one (1) reproducible copy of the final technical specifications, special provisions and cost estimate along with one (1) electronic copy of the documents in Microsoft Office format. These documents shall be subject to a complete review by members of DOTD and FHWA.

Subsequent to final plan submissions, Sponsor shall address all applicable comments.

14. Subsequent to approval of final plans, acquisition of all required right-of-way and the relocation and/or adjustment of all utility conflicts, the Sponsor shall prepare the construction proposals in the form required by DOTD. DOTD will prepare a Plan, Specification and Estimate (PS & E) submittal to FHWA as specified in 23 CFR Part 630 Subpart B ("Plans, Specifications and Estimates") and Federal Volume 6, Chapter-Aid Policy Guide Part 630. This submission shall contain all certifications and data necessary to conform to the Federal-Aid Policy Guide. Upon receipt of formal approval of the P S & E submission from the FHWA, the DOTD will advise the Sponsor in writing of such approval and will advertise the project for the receipt of bids.
15. After the Project has been constructed and accepted by DOTD, the plans remain the property of and in the possession of DOTD.

All such bids will be properly tabulated, extended and summarized to determine the official low bidder. The DOTD will then submit to the Sponsor copies of the official bid tabulations for their information and comments or approval while its Review Committee will concurrently analyze the bids for the DOTD. The award of contract, shall comply with LSA-R.S. 48:255 and latest edition of the Louisiana Standard Specifications for Roads and Bridges (Section 103.02 – Award of Contract), and, will be made by the DOTD on behalf of the Sponsor following the favorable recommendation of award by the Review Committee and concurrence by the Federal Highway Administration (FHWA) and the Sponsor.
